- I told ne some time ego that L A had approached Wolfern, FFAURULER, member of the Vesge organization (Eqs. Group, CO 15). We pointed out the Usego correction to D ... I, and have been waiting to see how long it would take Weage to report the approach.
- 2was that PYAUNDLER had told him of an approach by an Austrian-born baron, new a U.S. citizen. Verge claims that he himself deduced that this was I, whom he busy as a former member of our predecessor erganization.

  I sliegedly offered FFAUEDLER a job in the Austrian resistance movement. PRADERLUE either die not tell Usage the exact details of the offer or Usage refuses to tell. It was morely indicated to L I that. the offer was connected with the storage of arms for resistance purposes in the Tirol.
- The dignificant part of [ ] as approach is that he allegedly told FEMINITIES that he had gotten PFAUNDLER's name from a list, which had been shown him in Weshington, of individuels "working for a German intelli-Cense group. Teage is very censitive about being identified with German intelligence and claims that that is his reason for deciding to report the incident to IC 1 . As in the case of : [ ]'s statements to HARNIKSTY, the underlying implication is that the U.S. Intelligence Service is insecure end reveals the exmes of members of U.S. effiliated organizations to Associae individuals such as E - 1. We can certainly I s saying that he had seen FFAUHDLER's make on see no reasen for I a list of W.S .- sponsored Corman agents.
- 4. In I questioned YILUMDIER on his relations with William BITSCHANU (Using IT 1) and saled him whether he knew that BITSCEAU, according to U.S. intelligence records, was working for the French. Usago claims that PFAUNDLER denied entegerically that he had ever worked for BITECHEAU A. on for a Cornea intelligence group. C I mentioned to PFAUNDLEE that A elithersh he was not in contact with \_\_\_ I, he hated him sad his nenn Marger Putternerit
